

Alcestis

Description

This page is part of an ongoing development project. While it is publicly accessible, it is primarily intended for internal use and testing purposes within the University of Florida. Content and features may change as development progresses.

Radiation Safety

The Office of Radiation Safety is responsible for maintaining and administering the highest levels of safety protocols related to radiation safety on the University of Florida campus. A few of our responsibilities include:

- Developing policy and standards related to radiation safety regulations;
- UF representation and intermediary to federal, state, and local regulatory agencies, neighboring communities, and professional organizations;
- Provide technical assistance to assess and communicate risks;
- Investigating incidents and exposures;
- Safely transporting and shipping radioactive material;
- Collecting and maintaining records of exposures, waste, compliance and audits, permits, and incidents.

Contact

Email: radiationsafety@ehs.ufl.edu

Phone: 352-XXX-XXXX (replace with actual UF contact)
