

LAB SIGNAGE PLACEMENT

Place sign at a height for 48 inches to 60 inches from the floor (measured from the center of the sign):

Place on latch side of a single door. If there is no space on the latch side, signs must be located on the nearest adjacent wall:

For double leaf doors with both sides active, the sign must be located to the right of the door. For doors with one active leaf, the sign must be located on the inactive leaf:
